Return Application to NVCC Admissions Office by January 15, 2010

*Late applications for the Fall 2010 term will be considered after January 15, 2010 on a case-by-case basis dependent upon program vacancies. Applications received prior to January 15 will be pre-screened when they are received. Call (203) 575-8121 or email: bmattheis@nvcc.commnet.edu with any admissions questions.

Naugatuck Valley Community College
Respiratory Care Program Application
Fall 2010 Admission

Admission to the Respiratory Care Program at NVCC is selective. By successfully completing the necessary prerequisites and other program admission requirements, you may qualify for this program.

Instructions:

Read all criteria for admission to the Respiratory Care program. These are minimal admissions criteria and exceptions to criteria will only be made on a case-by-case basis.

Applicants currently enrolled in General Biology with lab (BIO*H105), Human Biology with lab (BIO*H115), Intermediate Algebra (MAT*H137) and/or Fundamentals of Writing (ENG*H063) who will complete the course by December 2009 must submit end of year grades. You must successfully complete these courses with a minimum of a "C" to be considered for admission.

If you believe that you will fulfill all admissions criteria by June 1, 2010 complete this application indicating how the admissions criteria are being met. The admissions office will verify applicant information through review of the applicant's entire academic record as it is on file in the admissions or record offices.

Applicants who are not admitted to the Respiratory Care Program for 2010 and who wish to seek admission in succeeding years must reapply.

rev. 2/12/09

New or Transfer Students must submit an NVCC Application along with this Program Application. Current or Former NVCC students need only submit this Program Application.
